

Electrode Components

scs1000	STs Series pH Replacement Electrode	210
scs2000	STs Series ORP (redox) Replacement Electrode	265
scs3000	STs Series Dissolved Oxygen Replacement Electrode	420
scs4000	STs Series Conductivity Replacement Electrode	420
grd1000	Replacement Electrode Guard for pH, DO, ORP	54
grd4000	Replacement Electrode Guard for Conductivity	50
bdy1000	Replacement Electrode Body for pH, ORP, and DO	87

Electrode can be replaced without purchasing replacement guard or electrode body.

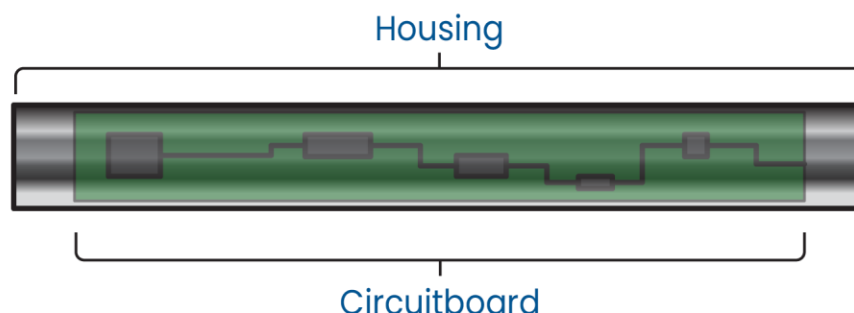

Transmitter Circuit Board - Found inside the metal housing

xtr1000	pH Transmitter (specify range)	470
xtr2000	ORP Transmitter (specify range)	470
xtr3000	Dissolved Oxygen Transmitter 0-20 mg/L	470
xtr4000	Conductivity Transmitter (specify range)	560

Housing

hsgss	316 Stainless Steel	95
hsgTi	Titanium	225

Cable Connection

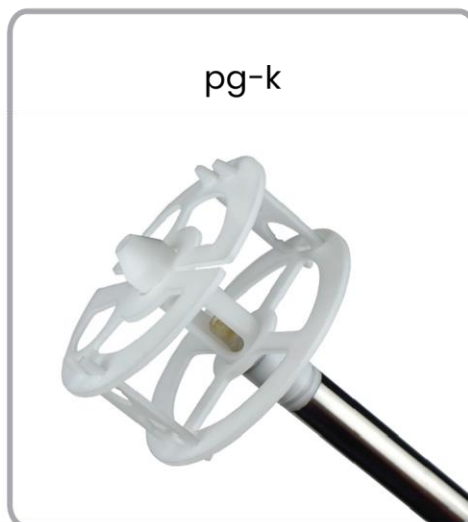

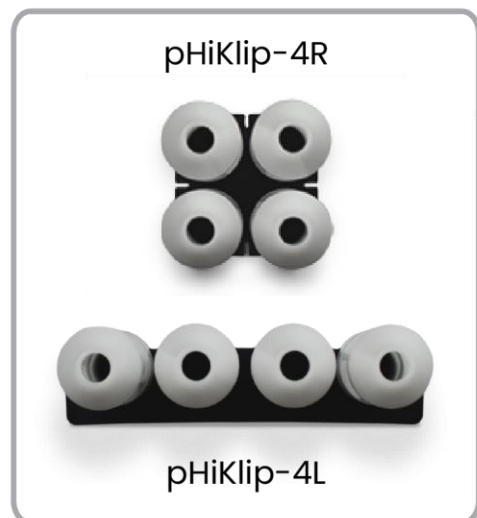

cbs025	25 ft. (7.62 m) Cable	225
cbsnnn	nnn ft. Custom Length Cable	250+3 per foot

Cables are polyurethane-coated, shielded, Kevlar-reinforced, and water-blocked.

Accessories

cmp-k	Custom 3/4 in. MNPT PVDF Compression Fitting for pipe mounting	95
pHiKlip™ _	Connects multiple STs Series sensors tightly together - Multiple formations available - See product page	40+
pg-k	Guard providing additional protection for electrode from fish fins	225
